

One Musician. A Full-Band Experience. Built Live.

Atlanta singer and guitarist, longtime frontman of alt-rock band The Commitaphobics, and a solo act since 2011. **Has shared the bill with Grand Funk Railroad and The Smithereans.** A voice described as "powerful enough to fuel a hotrod, yet warm enough to hush a baby's cry."

THE SOUND

Rock, pop, alternative and country hits from the '70s to today. An eclectic setlist that wins over audiences of every age and taste.

THE SHOW

Live looping: T. records and layers multiple instruments and vocals on stage, building the sound of four or five musicians in real time.

THE FIT

Corporate functions, private parties, festivals, city events, weddings, country clubs, bars and breweries. Special requests welcome.
